

ST6 Electronic Component Cleaner

GENERAL

ST6 Electronic Component Cleaner is a high performance non-chlorinated product used to penetrate and clean oils, greases and soils. It is an environmentally acceptable alternative that dries very quickly and leaves no residue.

FORMULATION

ST6 is made from low aromatic and contains no chlorinated solvents, yet the performance is similar to chlorofluorocarbons.

PRODUCT DESCRIPTION:

<u>TEST</u>	<u>UNIT OF MEASURE</u>	<u>SPECIFICATION</u>
APPEARANCE	-	Clear, Transparent Liquid
SPECIFIC GRAVITY	g/cm ³	0.70
SOLUBILITY IN WATER	-	Not soluble
DIELECTRIC STRENGTH	Kv	<= 35Kv
FLASH POINT	Deg C	-6

FEATURES

- Fast evaporation
- High flash point
- Low aromatic content
- Mild odour
- Safe on all metals
- Fast penetration, removes dirt, oil, and industrial soils
- Low residue

APPLICATIONS:

Spray cleaning:

- Control panels
- Switches
- Controllers
- Meters
- Contacts

Degreasing of

- Non-Energized electrical equipment.
- Motors
- Equipment and parts

DIRECTIONS

- ST6 should be used as is.
- For painted surfaces, check, on a non-critical area, that it does not damage the paint. Place on the surface and wait 15 minutes – ensure there has been no softening of the paint.
