DELIVERING RESULTS.

Sizonke Trading was established in Nelspruit and incorporated specialised product ranges progressively over the years. A focused drive to provide better products and service beyond the customers' expectations has secured Sizonke Trading a place in the local industry. We pride ourselves on getting the job done well, while maintaining excellent customer service. The company works with customers to provide the solutions that help industry run more reliably, efficiently and economically.

We pride ourselves in our ability to give our all in order to ensure your satisfaction. We want to bring the best products that the industry has to offer to you. We aim to bring a solution for every project!

WHAT WE DO

Manufacturers and importers of flexible convoluted metallic (braided) hoses and assemblies.

Single, double or no braid options are available. Our hoses are imported directly from ISO certified manufacturers that conform to BS6501 and are suitable for temperatures between -200° to 800°C.

Distributors of rubber hand-built hoses.

Distributors of industrial hoses and couplings. We can make up special fittings and modify parts to suit your needs.

Manufacturers and distributors of stainless steel, rubber and fabric expansion joints.

Convoluted 316L Stainless Steel Braided Hose is constructed of stainless steel for minimal permeation or absorption. The convoluted core allows for flexibility, and limits kinking. Available with a wide variety of end connections. Suitable for high-temperature, vacuum, medium-pressure, corrosive or general-purpose environments.

Sizes manufactured for 1/4" to 10".

Industrial hose is a flexible reinforced tube for conveying liquids, solids and gases at pressures lower than hydraulic hoses, selection of the proper hose and materials will increase hose life, improve performance and ensure safety. Hose design is based on a combination of application and performance. Common factors are size, pressure rating, weight, length, straight hose or coil hose, and chemical compatibility.

THE IMPORTANCE OF GUARANTEEING
SUCCESS!!
