

AIGI 16W

100% ePTFE Pump/Valve Packing

AIGI 16W is 100% ePTFE fiber braid for better sealability.

AIGI 16W is a universal valve packing for chemical and low pressure steam applications. It is a highly effect, long term sealing solution for manually operated valves and its low friction properties make it particularly suitable for air operated control valves.

Property

Value

Color

White

Temperature

260°C (500°F)

PH Range

0 ~ 14

Speed

10m/s (2000 Ft/min)

Pressure

40kgf/cm² (580 PSI)

Reciprocating Pressure

100kgf/cm² (1450 PSI)

** Lab results for individual production lots tested; some variability will occur.*

Application

General service valve packing for steam, water and chemicals
